

FINISHED COSMETIC PRODUCT DATA INFORMATION SHEET

HAIR CONDITIONERS (SILICONE-BASED)

PRODUCT AND COMPANY IDENTIFICATION

Formula type number: 10.5 - 2011

Product commercial names: **MASHUP N°30 - MASHUP N°44 - MASHUP N°54 – MASHUP SUN PROTECTIVE OIL**

Product identification: No-rinse solutions based on silicones and emulsifying agents

Identification of the manufacturer: BHCOMPANY – Via degli Alburni, 2b – Giffoni Valle Piana (SA)

Compilation date: April 2016 Version number: 04

COMPOSITION/INFORMATION ON INGREDIENTS

Based on the "Frame Formulation" system of the Cosmetic Products Notification Portal (Jan. 2011 edition), the indicated compositions correspond to a "standard formulation" that is representative of the product category. These "frame formulations" detail the types of ingredients and their maximum concentrations, allowing to identify the products quickly. The complete list of ingredients is printed on the packaging of each product in compliance with Regulation (EC) no. 1223/2009 on cosmetic products.

Ingredients	Maximum levels (% w/w)
<i>Aqua</i>	20
Additional ingredients (e.g. UV filters, polymers)	10
Emulsifying agents (e.g. ethoxylated long chain alcohols)	6
Ethanol ( <i>alcohol, denat. alcohol.</i> )	5
Silicones, including volatile silicones (e.g. <i>cyclopentasiloxane, dimethicone, amodimethicone</i> )	up to 100

IDENTIFICATION OF HAZARDS

The methods of use and warnings are shown on the product package.

When used following the manufacturer's instructions, the product is considered safe for the environment and humans, within its category, and except for cases of individual hypersensitivity to one or more of the ingredients in the formulation.

The following information applies in the case of improper use or accident.

The use of gloves is recommended and especially if the product is used frequently by professionals in hairstyling salons [PPE Directive (Personal Protective Equipment)].

Repeated skin exposure may cause skin rash due to irritation and/or allergic reaction.

Irritating to eyes or mucous membranes in general in case of accidental contact/if swallowed.

FIRST AID MEASURES

Measures in the case of:

Contact with the eyes: remove contact lenses, immediately flush eye with plenty of lukewarm water; if irritation persists, contact a poison centre or seek medical advice.

Contact with the skin/mucous membranes: immediately wash with plenty of water. If irritation persists, contact a poison centre or seek medical advice.

Involuntary ingestion: do not induce vomiting. If the severity of the symptoms requires it, contact a poison centre or seek medical advice.

FIRE-FIGHTING MEASURES

Non-flammable product. In case of fire, use atomized water, foam, chemical powder or carbon dioxide.

ACCIDENTAL RELEASE MEASURES

Collect the spilled product using sand or sawdust or with a cleaning cloth, where possible, and put into suitable containers for disposal according to the law. Wash the contaminated area with water. Never put spilled product back in the original container. Do not use spilled product.

HANDLING AND STORAGE

Handling

- Carefully follow the instructions and warnings on the package or on enclosed leaflet.
- Do not use for any purpose not described in the instructions.
- Avoid mixing with other products, similar products or products with substances other than those specified in the instructions.
- Never put spilled product back in the original container for reuse.
- Avoid product contamination during use.
- Keep out of the reach of children.

#### Health warnings

- Do not apply if the scalp is damaged, irritated or affected by disease (eczema, psoriasis, etc.).
- Continuous exposure to detergents (soap, shampoo, liquid detergents), for professional reasons, may deplete the hydrolipidic film and horny layer that constitute the skin's natural barrier. The depletion of this barrier could cause skin lesions and exposure to external agents. Under these conditions, handling other products normally used during professional activities without proper precautions may cause intolerance that, in the long-term, could lead to serious irritation and allergies.

#### Storage

Store in a dry, well-ventilated area (at room temperature). Do not store or use the product near open flame, sources of heat, operating electrical equipment or in direct sunlight. Do not store the product at a temperature lower than 5 °C or above 30 °C. Close container tightly after use.

### **PERSONAL PROTECTION/EXPOSURE CONTROLS**

If an Employer identifies risks that are not avoidable through other means, it is required to provide adequate Personal Protective Equipment (PPE) (article 77 DL 81/08 as amended).

PPE must be compliant with the regulations under DL 475/92 (article 76 DL 81/08 as amended).

The use of PPE provided by the Employer is obligatory (articles 20 and 78 of DL 81/08 as amended).

In the specific case:

- during all phases of application and handling, use disposable plastic gloves;
- use carefully-cleaned work instruments;
- avoid instruments containing nickel;
- do not wear jewellery.

The working environment must have adequate ventilation, provided, if necessary, via mechanical ventilation systems.

Areas in which the emission of vapours, gas, dust or spills of hazardous substances can occur must be separated and equipped with local extraction or collection systems (articles 64 of DL 81/08 as amended).

### **PHYSICAL AND CHEMICAL PROPERTIES**

Appearance: liquid or creamy

Odour: characteristic

### **STABILITY AND REACTIVITY**

Product stable at ordinary temperatures and under the indicated storage conditions.

### **INFORMATION FOR THE PROTECTION OF THE ENVIRONMENT**

Environmental regulations are laid down in DL no. 152 of 3 April 2006 and subsequent modifications.

Waste is classified according to its origin (municipal waste or special waste) and according to its degree of hazardousness (hazardous waste and non-hazardous waste). Waste coming from commercial businesses is considered as special, hazardous or non-hazardous waste. The producer (or holder) of special waste is responsible for arranging disposal at its own expense and for proper handling of the waste.

In some cases, in accordance with article 184 of DL no. 152/2006 and subsequent modifications, for disposal purposes, non-hazardous special waste from craft, commercial and service businesses can be included in municipal waste: it is the responsibility of the municipalities, article 198 of DL no.152/2006 and subsequent modifications, to establish the assimilation of non-hazardous special waste into municipal waste.

DL no. 152/2006 and subsequent modifications considers waste water from professional hairstyling businesses comparable to residential waste water and, therefore, it can be discharged into the public sewers provided that the regulations issued by the pertinent water and sewage company are observed (art. 124, paragraph 4).

### **REGULATORY INFORMATION**

These finished cosmetic products are manufactured and sold in conformity with Regulation (EC) no. 1223/2009 on cosmetic products.

Cosmetic products are specifically excluded from the field of application of Italian and Community laws on hazardous preparations.

The need to subject workers to a health-monitoring program (pre-hire and periodic medical examinations) must be evaluated by the doctor in charge on the basis of the Risk Evaluation Document and specific knowledge of the risk situation (articles 38, 39, 40, 41, 42 of DL 81/08 as amended).

Workers are obligated to submit to health monitoring required by the doctor in charge (article 20 DL 81/08 as amended).

### **OTHER INFORMATION**

This information represents the current state of our knowledge. All information shown on this sheet regarding composition and chemical/physical properties is provided exclusively for the correct handling and use of the product and for responding to emergencies. The information does not indicate the complete composition of the product (shown on the package) nor does it represent a specification for sales purposes.
